

Assembly Instructions For 885 Kite

1. Lay the kite out flat and locate all of the sticks. 4 sticks will be attached to the kite and 2 sticks will be loose.

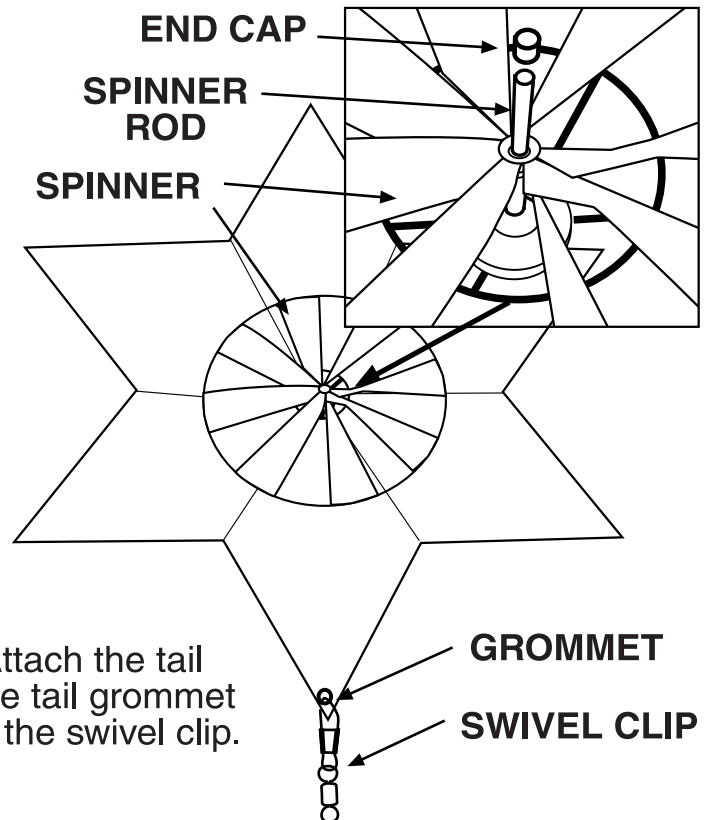

2. Insert one end of each stick into the center hub and the other end into a pocket at each point of the star.

3. Turn the kite over and place the spinner rod into the hub.

4. Remove the end cap and place the spinner onto the spinner rod and then replace the end cap.

5. Attach the tail to the tail grommet with the swivel clip.
