

# Gayla Dragon Kite Assembly Instructions

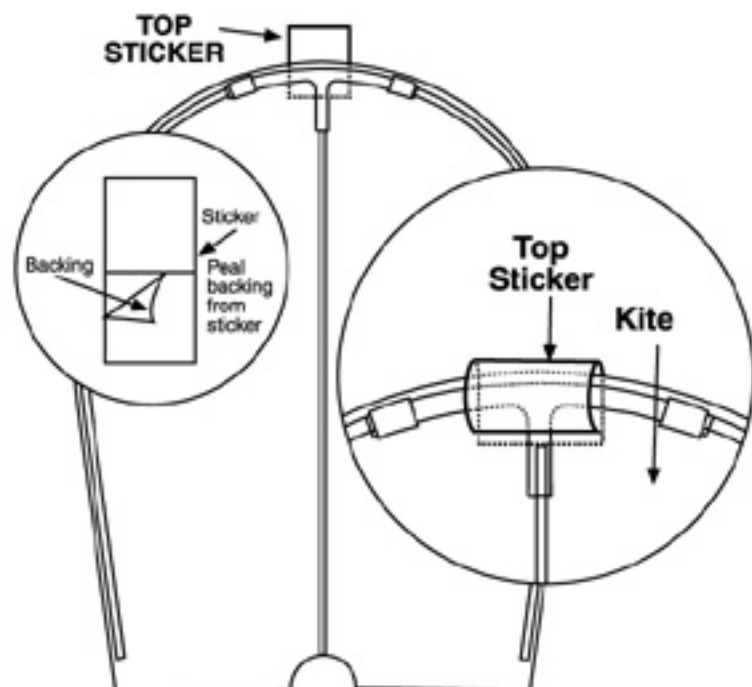

**1** Lay the kite out flat and remove the connector from the center stick.

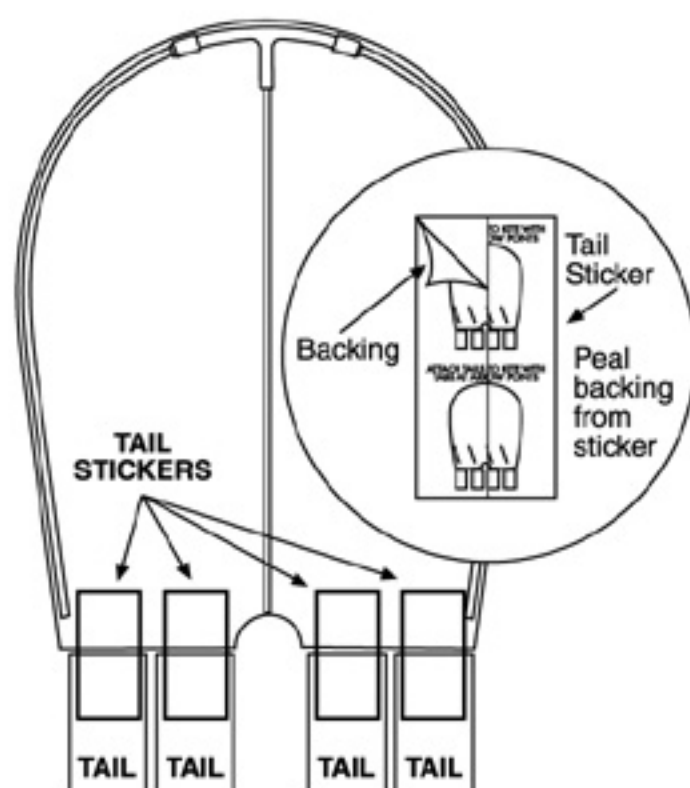

**2** Align the connector with the ends of the outside and center sticks. Beginning with the outside sticks, press the connector down, snapping it onto the ends of the sticks

**3** Slide the collars toward the ends of the connector to lock it to the outside sticks

**4** Peel the backing from the top sticker and lay it under the kite. Fold it over so it is attached to both sides of the kite.

**5** Peel the backing from the stickers and attach the tails to the kite as shown above.
