864 3-D Killer Whale Kite Assembly Instructions

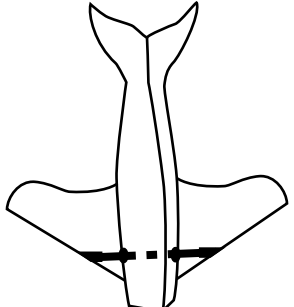

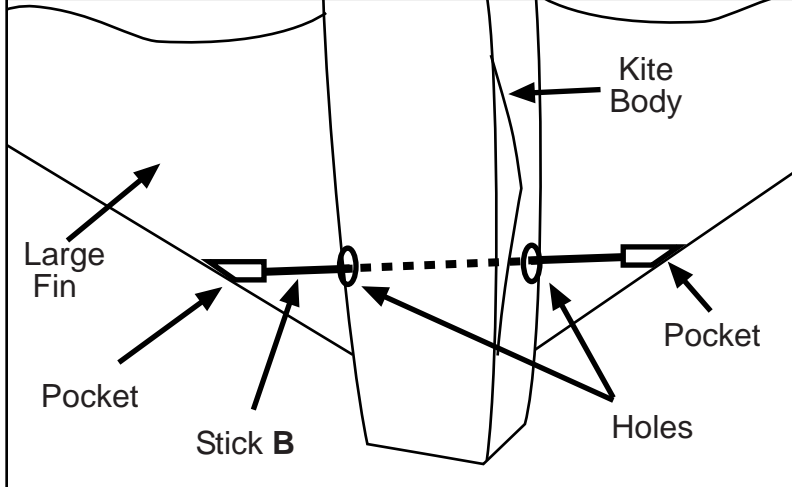

Sticks Provided

- A (NOSE) 
- B (LARGE FIN) 
- C (TOP FIN) 
- D (TAIL) 

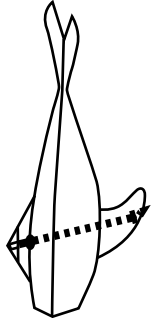

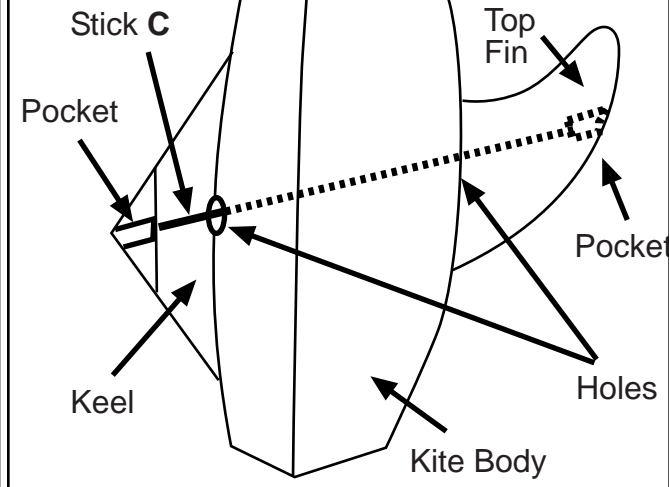

1. Lay the kite out flat and insert the two sticks **A**. The sticks fit into the connector sockets in the each corner of the front part of the kite

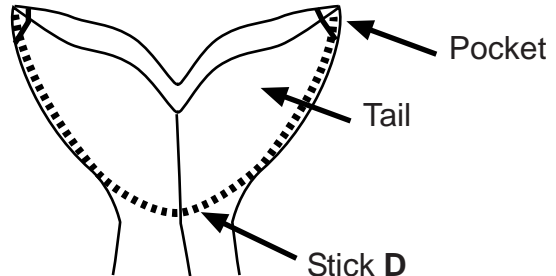

2. Set the kite on its nose and insert the stick **B** into the pockets on each large fin. The stick goes through the holes in the kite body

3. Turn the kite around and insert stick **C** through the holes in the kite body and into the pockets on the keel and the top fin.

4. Bend stick **D** into a U shape and insert each end into the pockets on each tip of the tail.

5. Place the Kite Nose onto the body and secure with the velcro pads.
